

## Product Accessibility Assessment

Name of Product: eCopy Desktop Version 7.1

Date: July 24, 2002

The rules below refer to the Electronic and Information Technology Accessibility Standards (covered by Section 508 of the Rehabilitation Acts of 1998) issued by the Architectural and Transportation Compliance Board. Comments in the "Supporting Features" column are based on the Information Technology Industry's suggested language for use when filling out the Voluntary Product Accessibility Template.

\*Due to limitations on products whose function is based on the viewing of graphics, making this product completely accessible to users with no or extremely low vision would require a fundamental alteration and is thus a commercial impossibility.

Information herein provided and authorized by eCopy, Inc. Canon U.S.A., Inc. does not assume responsibility for the accuracy of the contents. All criteria were tested for compatibility with JAWS screen-reading software; however, this does not guarantee compatibility with all Assistive technology software applications on the market.

<b>Section 1194.21 Software Applications and Operating Systems - Detail Voluntary Product Accessibility Template (Assessment for eCopy Desktop 7.1)</b>		
<b><i>Criteria</i></b>	<b>Supporting Features</b>	<b>Remarks and explanations</b>
(a) When software is designed to run on a system that has a keyboard, product functions shall be executable from a keyboard where the function itself or the result of performing a function can be discerned textually.	Supports.	
(b) Applications shall not disrupt or disable activated features of other products that are identified as accessibility features, where those features are developed and documented according to industry standards. Applications also shall not disrupt or disable activated features of any operating system that are identified as accessibility features where the application programming interface for those accessibility features has been documented by the manufacturer of the operating system and is available to the product developer.	Supports.	

**Section 1194.21 Software Applications and Operating Systems - Detail  
Voluntary Product Accessibility Template  
(Assessment for eCopy Desktop 7.1)**

<b>Criteria</b>	<b>Supporting Features</b>	<b>Remarks and explanations</b>
(c) A well-defined on-screen indication of the current focus shall be provided that moves among interactive interface elements as the input focus changes. The focus shall be programmatically exposed so that Assistive Technology can track focus and focus changes.	Supports.	JAWS successfully tracked all program elements on Desktop
(d) Sufficient information about a user interface element including the identity, operation and state of the element shall be available to Assistive Technology. When an image represents a program element, the information conveyed by the image must also be available in text.	Supports.	JAWS successfully tracked all Control Bar "Text" elements. All Text elements exposed from Control Bar.
(e) When bitmap images are used to identify controls, status indicators, or other programmatic elements, the meaning assigned to those images shall be consistent throughout an application's performance.	Supports.	
(f) Textual information shall be provided through operating system functions for displaying text. The minimum information that shall be made available is text content, text input caret location, and text attributes.	Supports with exceptions.	JAWS successfully tracked the following Menu Bar objects: Print, e-Mail, Scan, Mark-up, typing, OCR.  JAWS is unable to read image functions: rotate, zoom, highlight, tile objects, rubber band, redact, whiteout, stamp. These functions are image-based functions that can only be executed with mouse, point and click.
(g) Applications shall not override user selected contrast and color selections and other individual display attributes.	Supports.	
(h) When animation is displayed, the	Not applicable.	The product does not

information shall be displayable in at least one non-animated presentation mode at the option of the user.		utilize animation.

**Section 1194.21 Software Applications and Operating Systems - Detail  
Voluntary Product Accessibility Template  
(Assessment for eCopy Desktop 7.1)**

<b>Criteria</b>	<b>Supporting Features</b>	<b>Remarks and explanations</b>
(i) Color coding shall not be used as the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.	Not applicable.	The product does not utilize color-coding.
(j) When a product permits a user to adjust color and contrast settings, a variety of color selections capable of producing a range of contrast levels shall be provided.	Not applicable.	The product does not permit the user to adjust color and contrast settings.
(k) Software shall not use flashing or blinking text, objects, or other elements having a flash or blink frequency greater than 2 Hz and lower than 55 Hz.	Supports.	The product uses no element having a flash or blink frequency greater than 2Hz and lower than 55Hz.
(l) When electronic forms are used, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	Not applicable.	The product does not utilize electronic forms.
