

Canon

PIXMA iP90 Photo Printer

Brilliant Output. Compact Design.

- Exceptional photographic details with microscopic droplets as small as 2 picoliters
- Up to 16 ppm black/up to 12 ppm color
- Wireless printing capable from select devices
- Long lasting edge-to-edge borderless photos (4 x 6, 5 x 7 & 8.5 x 11 in.)
- Direct printing from compatible PictBridge digital cameras & DV camcorders
- Optional mobile accessories

IrDA Interface

Bluetooth Interface

Versatile, wireless printing. The iP90 printer offers both IrDA compatibility and an optional Bluetooth interface enabling you to print wirelessly from a PC, PDA or mobile phone.² For maximum portability, an optional Canon car adapter and rechargeable battery kit provide power on the go.

Power and portability.

Rugged, powerful and portable, the Canon Pixma iP90 Photo Printer delivers exceptional performance at home or on the road. This compact printer can produce up to 16 ppm in black and up to 12 ppm in color; while achieving a resolution of up to 4800 x 1200 color dpi². Canon Full-photolithography Inkjet Nozzle Engineering (FINE) uses a high-performance 1,088-nozzle print head that ejects precise and consistent droplets as small as 2 picoliters with remarkable accuracy. Your results: impressive resolution and dramatic detail on graphics and photos, wherever you're printing from.

In a hotel room or a home office, the iP90 printer goes practically anywhere, yielding superb output on all your projects. Reports and memos will look clean and professional with bold, crisp text. Using the included Canon Easy-WebPrint³ software, Web pages are automatically formatted, so they'll print properly with full color and without trimming off the right-hand margin. You can also produce 4 x 6, 5 x 7 and 8.5 x 11 in. borderless prints, with stunning edge-to-edge quality and razor-sharp detail. In only about 51 seconds¹ you can print a 4" x 6" photo with the look and feel of a traditional photograph. And for convenience, you can connect any PictBridge compatible digital camera or DV camcorder directly to the iP90 printer and print photos—no PC required!

Canon smart ink features.

If you're on-the-go and low on ink the iP90 printer's "Ink Usage Control" setting enables you to produce approximately 1.5 times more pages without lowering print quality. Plus, if you run out of black ink, just choose the "Use Composite Black" option and the iP90 printer continues to print black using a composite of color inks in the "Ink Usage Control" setting. These features are a convenient safety net when you don't have extra ink on hand.

Save Black Ink Mode
Increasing printing capability by approx. 50%.
