

Kofax Power PDF™ Advanced

Kofax® Power PDF Advanced is a solution that helps make it easy for users to gain control over PDF workflows—including PDF conversion, editing, forms, and collaboration processes—in various departments and other uses.

POWER PDF ADVANCED ADVANTAGES

Maximize productivity with an intuitive navigation experience

Power PDF Advanced offers a modern, intuitive user interface. The Quick Access Toolbar permits users to create shortcuts to frequently used features and capabilities.

Accurate document and file conversion

Power PDF Advanced recognizes scanned text and reproduces complex layouts with columns, tables, and graphics. It includes an OCR proofreader tool to help users identify and correct text results, so that PDF documents are searchable.

Sign and send PDFs for signature with e-signature services¹

Whether approving a purchase, closing a sale, or signing an agreement, users may select to sign a PDF or send it to another party for their signature using the integrated e-signature actions.

Collaborate in real time

Documents can be created, edited, and combined together in Power PDF in real time with authorized users on the same LAN—no need to send them back and forth among various parties.

Combine open documents with just one click

Users can combine open documents into a single PDF, helping to streamline tasks. Just click the “Combine All” option on the Home toolbar, and bookmarks will be created from the file names to the original documents.

Key Benefits

- Create and assemble PDF files easily from compatible applications¹
- Accurately convert PDF files into editable Microsoft® Office® documents¹
- Create PDFs that are compatible with the ISO PDF 2.0 file format
- Document encryption security features²
- Powerful document encryption security features²
- User-friendly navigation experience
- Turn paper documents into searchable PDFs more productively
- Streamline document reviews and collaboration
- Connect with compatible document management systems and cloud file-sharing sites¹

Newest Capabilities

- Improved document conversion accuracy through Kofax Optical Character Recognition (OCR) version 21
- Expanded accessibility to meet more standards, including PDF to PDF/UA and WCAG 2.1 AA
- More e-signature management integration options that can help to provide time-savings¹
- Expanded use of export add-in code to improve file consistency and accessibility compliance efforts³
- New clean and modern user interface
- Apply bates numbering across PDF Portfolios
- Ready-to-go Published Connector SDK to help users build customer connectors
- OneDrive Connector options - allows direct cloud connections to compatible cloud and third-party applications¹

Kofax Power PDF™ Advanced

BENEFITS OF POWER PDF ADVANCED

Create and assemble PDFs from compatible applications¹

Quickly create industry-standard PDF files that are compatible with all supported PDF viewers.¹

Archive important emails as PDFs

Save Microsoft® Outlook® and Lotus Notes™ emails as PDF files along with attachments and links.¹

No need to retype your documents

When working with PDF documents in other applications, Power PDF Standard can help users to limit the need to recreate and reconvert files. Complex layouts with columns, tables, and graphics can be reproduced in Microsoft® Word, Excel®, PowerPoint®, and Corel WordPerfect® documents.¹

Enhanced document security features²

Add passwords with 128-bit and 256-bit AES encryption and permission controls to PDF files to manage document viewing, printing, and modification.

Redact sensitive information²

Advanced redaction capabilities allows users to remove confidential data for document sharing.

Help boost productivity with automated workflows

Simplify document scanning, capture, conversion, and redaction workflows. Utilize Power PDF's watched folder capability to convert several Microsoft® Office® documents into PDF files automatically using pre-defined workflow rules.

Connect with document management systems¹

Send or retrieve PDF files from NetDocuments®, OpenText eDOCS®, iManage®, Livelink®, OpenText Enterprise Connect®, Worldox™, EMC Documentum®, Therefore™, Office 365® and SharePoint®.¹

SYSTEM REQUIREMENTS⁴

- A computer with 1.5 GHz or faster processor
- A computer with an Intel Pentium 4 higher, or equivalent processor
- Supported operating systems
 - Windows 10; 32-bit and 64-bit Editions
 - Windows 8.1; 32-bit and 64-bit Editions
 - Windows 7; 32-bit and 64-bit Editions with Service Pack 1
 - Windows Server 2008 R2 with SP1, 2012 R2, 2016 (Citrix, AD, WTS). (Applies to Power PDF Advanced only).
- 1 GB of memory (RAM) or greater
- 1 GB of free hard disk space for application files
- Web access needed for product registration, activation, product help, and obtaining live updates for the program
- Microsoft .Net Framework 4.8. If it's not detected, it installs with the product.
